Pete,

Below is a string of emails that was originally sent to me by Nancy. The top email is from Erin to Nancy, which she forwarded to me.

If you go to the very bottom it is Greg and Keith Moss talking about a foreign exchange kid and Keith Moss' response makes reference to a friend outside the district?

Nancy,

Here it is. I don't think this kids should play at any of the SFL schools. We don't even know

522

who this kid is, where he's coming from, where he's going or if he is actually an exchange student in a CIF approved Exchange Student Program or coming in as an International Student.

Keith Moss is a coach for St. Mary's Men's Basketball and obviously wants him for college play.

Keith's older son, Brandon Moss attends Roseville HS and is in the boy's basketball program. Brandon's younger brother tried transferring into Rocklin numerous times and denied, but then approved. He is a freshman now at Rocklin, Devin Moss. Devin is supposed to be the better basketball player between the two boys and rumor has it (Brandon told Errecart and Granucci) that Steve Taylor contacted Keith Moss telling him he wanted Devin at Rocklin HS. Brandon went on to tell numerous people that Steve told his father that Devin would have a starting position on the Rocklin JV team if not on the varsity as a freshman. According to Brandon, they tried transferring his brother to Rocklin 8 times before he was approved.

He then contacted Errecart and Granucci today during Club Rush to confirm the French Exchange Student coming to Roseville HS or possibly Rocklin and that they didn't know where he'd go yet, but that there was a chance he'd come to Roseville. He was with Trey Rosenberg. This is what started the conversations between Greg and Keith Moss. Also the fact that Greg was really disappointed that Devin was not attending his resident high school as his brother.

I doubt David Bills knows any of this. Not sure where to take it from here.

I totally understand. If it's worth anything we would love to have him here at Roseville and it sounds like he would help us tremendously. If it is to hard for you to house him can we find another family at Roseville that would do it?

Greg,

Yea we thought it was better to have Devin and Brandon seperated.

Im not sure what direction Im gonna go with the exchange student. I have a friend outside the district that wants to do it.

With my work schedule I dont think its best to house him. I do have to move quickly. I will keep you updated. I really dont care where he goes to high School its all about getting him to St. Marys.

Keith
